Just a little trivia:

Chris Isaac (his real name) was chosen by People magazine as one of the 50 Most Beautiful People in the world in 1990. In 1980, he graduated from University of the Pacific, located in Stockton, California. From a working-class background, he earned his bachelor's degree in English literature, then studied in Japan for a year. He worked in film studio there and also boxed as a light heavyweight amateur. Sang at parties and played rockabilly and Elvis Presley tunes on his guitar. Returned to San Francisco and performed as a solo act then backed by Silvertone band. Signed with Reprise Records. He still lives by the beach in the San Francisco Bay area.

He has "I Carole L" written on one of his guitars in memory of Carole Low, his former Stagg High School sweetheart, who passed away from cancer. He was actually going to be dropped by his record label until David Lynch used "Wicked Game" on the soundtrack of Wild at Heart (1990) making the song a big hit and saving his record deal. He later acted for Lynch in Twin Peaks: Fire Walk with Me (1992)

Blue Moon
 You saw me standing alone
 Without a dream in my heart
 Without a love of my own
 Blue Moon
 You know just what I was there for
 You heard me saying a prayer for
 Someone I really could care for

 And then there suddenly appeared before me
 The only one my arms will hold
 I heard somebody whisper please adore me

And when I looked to the Moon it turned to gold

 Blue Moon
 Now I'm no longer alone
 Without a dream in my heart
 Without a love of my own

 And then there suddenly appeared before me
 The only one my arms will ever hold
 I heard somebody whisper please adore me
 And when I looked the Moon had turned to gold

What is a Blue Moon? One meaning was that in 1883 when Krakatoa volcano erupted and put dust in the air that the moon appeared blue for almost two years. Another meaning was the 13th full moon in a year. The current meaning is when there is a second full moon in a single month. The second moon is a "blue moon". That second full moon occurs on December 31, 2009.

Only once in a blue moon does this ever occur on New Year's Eve. :-))))
